THE STUDENT OF CONCERN REPORTING PROCESS:

As a UC Merced community, it is our goal to intervene before a student reaches a crisis level. The process below offers supportive intervention and guidance to any UC Merced student who is in distress or struggling. If you are aware that a student is experiencing challenges or difficulties that concern you please do the following:

1. Support a Student in Distress – When aiding a student you are not expected to provide personal counseling. Rather, you play an important role in empowering students to use campus resources, including facilitating a referral to appropriate resources.
2. File a Student of Concern Report – After making the appropriate referrals above, you should file a student of concern report (see below QR code for access to the form or visit <http://srt.ucmerced.edu>).
3. What Happens After – Once a Student of Concern Report is filed, it is sent to the Dean of Students Office Staff for review. The DOS staff may contact the individual who filed the report to discuss the concern. More importantly, the DOS staff will reach out to the student of concern to assess any additional resources the student may need and collaboratively develop an action plan. Depending on the circumstance the DOS staff will keep this student on the Students Response Team radar and monitor the student's progress.

In the case of an emergency, please contact 911.
